

How to Use PowerFlex Charging Stations

Account Setup

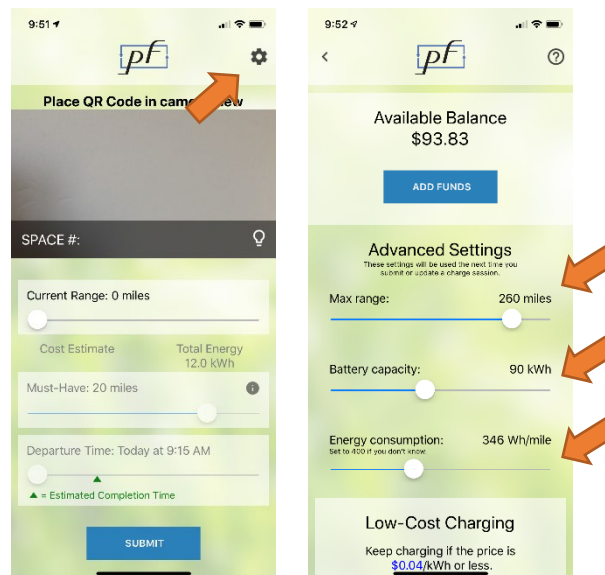

1. Download and install the PowerFlex app on your smartphone.

2. Launch the app and register an account using your email address.
3. A 6-digit code will be sent to your email. Use that code to confirm your email address in the app. If you don't see the email in your inbox, please check your spam folder.

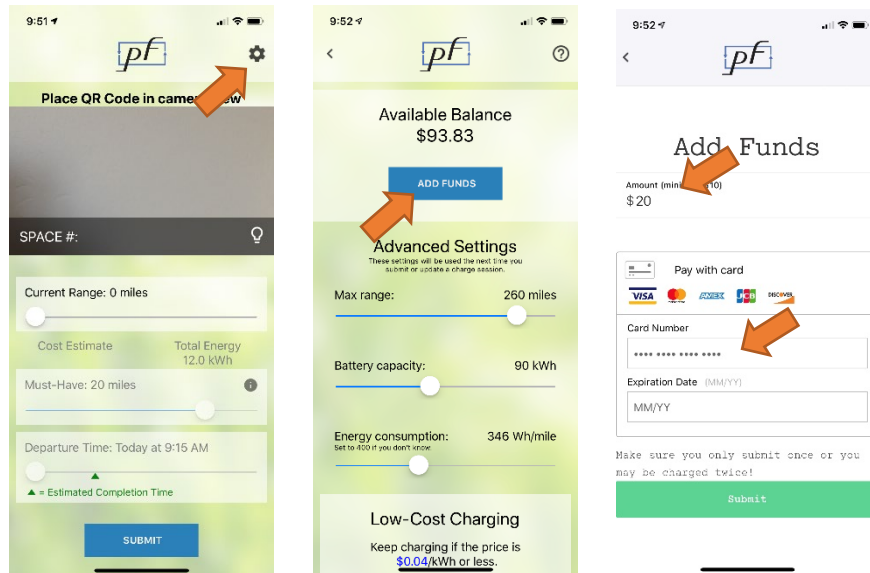

EV Setup

1. Log in to the PowerFlex app on your smartphone.
2. Tap on the gear icon at the top right of the screen.
3. Under "Advanced Settings," enter your maximum electric range, battery capacity, and energy consumption (if you do not know the energy consumption, use 350Wh/mi. Your car's range and battery capacity can be located on the vehicle manufacturer's website or the car's driver manual).

Adding Funds

1. Log in to the PowerFlex app on your smartphone.
2. Tap on the gear icon at the top right of the screen.
3. Tap on add funds.
4. Enter the amount you would like to add to your mobile wallet and enter your credit card.

Charging your car

1. Connect your car to the charging station.
2. Launch the PowerFlex app and scan the QR code on the station. Upon a successful scan, the space number should appear under the camera view in green font.
3. Enter your must-have miles (the minimum you need for the day), your departure time, and then tap Submit.
